

Did you know...

you can view Cost Offer details for Air vs Ocn in Qlik?

The Tradestone – Offer Cost Details app gives users visibility to the cost details of Air and Ocn ship modes...

Update cadence = 2X daily

Offer must have Cost attached to qualify

Currently, only Air and Ocn details

This app is currently in UAT, so contact acafierno@urbn.com for any support

Users can see the FOB, ELC, Retail and IMU % for the Air or Ocn Cost Offers on the Offer Cost Summary screen...

Users must make a few selections (filters) for the report to populate:

- Brand or Class
- Season

Once selections are made, the report will show the Target IMU %, Ship Mode, TTL FOB, TTL ELC, TTL Retail, and IMU

Previously, this info was only available in TS through the Straight to PO Query, the Cost Offer Details, or flipping the trans mode on an offer
